- In level 1-2, if tosses are thrown no deduction will be given, however no score will be given either.

The school divisions at NZCU Nationals follow the same scoring and rules as club teams, the only difference being coaches can choose to split skills over two levels. This allows coaches more freedom due to the nature of a school team, where it is highly likely to have athletes with a large range of mixed ability. Judges will not award more points for the higher levelled skills within each 'split'; all skills from the two levels are considered level appropriate and will be scored accordingly.

Alternatively schools can choose to focus on one level rather than split over two. Coaches would then choose which is the 'best fit' for their team out of the two options i.e. a team could focus solely on Level 2 skills and enter level 2-3 as they include tosses. Not having any Level 3 skills will not unfairly disadvantage them as all skills from both levels get the same points.
